Solidarity with Poland following the tragic attack in Kraków

Dear Comrades,

We extend our deepest condolences to our Polish member organisations in the wake of the tragic attack in Kraków on November 7, which claimed innocent lives and left many others wounded. We stand in solidarity with the victims, their families, friends, and colleagues during this painful time.

Acts of terror and violence, whatever their motivation, seek to spread fear and division. Such attacks must never succeed in undermining our shared values of democracy and respect for human life.

We also commend the brave workers in the Polish police, emergency services, and healthcare system. Their swift and professional response was instrumental in containing the situation, caring for the injured, and saving lives.

In Solidarity,

Judith Kirton-Darling
General Secretary

Isabelle Barthès
Deputy General Secretary
